

VERDICT

of scientific seminar "Development of thematic component geospatial data infrastructure in Ukraine" (June 17, 2011, Kyiv)

The seminar was held at the initiative of the Institute of NAS of Ukraine. It took part experts from Ukraine, Russia and Slovakia to the active support of his Association global spatial data infrastructure. Among 50 participants were specialists from Slovakia (Bratislava), Russia (Moscow), Ukraine (Kyiv, Odessa, Kharkiv, Dnipropetrovsk, Lviv, Simferopol, Kherson).

During the seminar there were discussed the legislative and regulatory support for development of SDI in Ukraine, the scientific principles of organization and presentation of thematic mapping information in the SDI, the value of the National Atlas of Ukraine in the formation of SDI. There were expressed by conceptual, methodological and technological approaches to the formation of an infrastructure of geospatial data and its thematic component in Ukraine, development of thematic mapping on the basis of SDI.

The seminar "Development of thematic component geospatial data infrastructure in Ukraine" offers:

The seminar "Development of thematic component geospatial data infrastructure in Ukraine" offers:

1. Strengthen support for initiatives to develop geospatial data infrastructure in Ukraine. Contact the government with a proposal to accelerate the adoption of the Law of geospatial data infrastructure in Ukraine.

2. Deem appropriate under the State Service of Geodesy, Cartography and Cadastre resume work Commission for Geoinformatics and GIS.

3. Initiate preparation of methodical manuals for universities about problems of formation sets and databases of geospatial data and geospatial data infrastructure.

4. To consider a priority to attract scientists to the harmonization of international standards ISO 19100 "Geographic information / Geomatics" in the Technical Committee of the State consumer standard.

5. Establish work in the regions to support the development of SDI and the formation of regional geospatial databases.

6. Consider it appropriate to creation a working group at Ukrainian Cartographic Association for the organization scientific and technical work for the development of the thematic component of SDI in Ukraine on the basis of basic sets of geospatial data.

Participants of the seminar thank the Association of the global geospatial data infrastructure for support of this seminar, and the Institute of NAS of Ukraine - for the successful preparation and conduct of the seminar.
